## Liturgy leads us back to what is essential: The presence and love of Christ

During his General Audience of June 3 in St. Peter's Square, Pope Leo XIV reflected on the profound role of the liturgy in Christian life, drawing from *Sacrosanctum Concilium*, the Second Vatican Council's 1963 Constitution on the Sacred Liturgy. He emphasized that in a world marked by constant activity, noise, and pressure for productivity, the liturgy—through its rite, signs, and symbols—offers a necessary pause that reconnects believers with what is essential: the presence and love of Christ.

The Pope highlighted that the solemn simplicity of liturgical rhythms interrupts the frenetic pace of modern life. This interruption is not an escape but an invitation to rediscover a different experience of time and action—one shaped by gratuitousness, grace, and the quiet work of the Holy Spirit. The rite, he explained, teaches Christians to inhabit time differently, allowing the heart to be regenerated and attuned to God's initiative.

Pope Leo situated his teaching within the broader context of Vatican II. *Sacrosanctum Concilium*, the first document promulgated by the Council, brought significant renewal to Catholic worship, including the use of vernacular languages and a strong call for active participation by the faithful. These reforms, he noted, were rooted in the earlier Liturgical Movement, which sought to help the Church rediscover the theological depth and pastoral power of the liturgy.

The Pope insisted that the rites of the liturgy are not superficial or arbitrary ceremonies. Rather, they are the ecclesial mediation through which God's grace reaches His people. The rite "gives shape" to liturgical action and forms a spiritual sensibility capable of perceiving Christ's presence. But this transformation requires that the faithful not remain "silent spectators." True participation involves the whole person—body,

mind, and heart—and leads to growth in listening, thanksgiving, adoration, fraternal charity, and ecclesial communion. Through the rite, diverse individuals become one assembly united in faith.

Acknowledging that liturgical gestures and prayers follow a precise sequence that may challenge modern preferences for spontaneity, Pope Leo clarified that the purpose of the rite is not to restrict freedom. Instead, its structure opens believers to their inner spiritual life and guides them toward what truly matters.

Turning to signs and symbols, the Pope explained that these elements, deeply rooted in creation and human culture, support the sanctification of the faithful. A sign becomes symbolic when it evokes an entire network of meanings and values. Water, for example, recalls creation, the Flood, the Exodus, the Jordan, and ultimately the water flowing from Christ's side—making it a powerful sacramental sign of death and resurrection. Symbols also include embodied actions such as kneeling or exchanging the sign of peace. These gestures have a performative and transformative character: they shape relationships, touch the heart, and build authentic ecclesial belonging.

Pope Leo concluded by urging the faithful to let themselves be educated by the liturgy, caring for the beauty of celebrations without arbitrariness. A living, devout liturgy—supported by good mystagogical catechesis—is, he said, the best way to reawaken openness to encountering God with one's whole being: spirit, soul, and body.
